Professional Summary

Frontend Developer with 3+ years of experience at **COA Network**, specializing in building responsive and user-centric web applications. I have 3 years of hands-on experience with React.js, developing reusable components, managing state with React Hooks, and integrating REST APIs. I work closely with UX designers and backend developers to deliver seamless, high-performance user interfaces that enhance functionality, usability, and overall product quality.

Technical Skills

- **Languages & Frameworks:** React.js, JavaScript, HTML5, CSS3, JQuery, Bootstrap,
- **CMS & Design Tools:** Figma, Photoshop
- **Version Control:** Git, GitHub
- **Other Skills:** UI/UX principles, Responsive Design, Cross-browser Compatibility, Problem Solving, Teamwork, Communication

Work Experience

Front end Developer

COA Network Pvt. Ltd., Hyderabad

Sep 2022 – Present

- Built and maintained user interfaces for web and mobile applications in collaboration with UX designers.
- Developed responsive and accessible front-end components using React, HTML, CSS, JavaScript and Bootstrap.
- Collaborated with backend developers to ensure proper UI integrations and smooth functionality across all modules.
- Contributed to improving UI functionality, reducing page load times, and enhancing SEO performance.

Key Projects

iTeleCenter / CallMantra

- Cloud-based calling and texting platform for recruiters.
- Built reusable and responsive UI components using React, HTML5, CSS3 and Bootstrap.
- Implemented React Hooks (useState, useEffect) for state management and UI updates.
- Integrated REST APIs to render dynamic data and ensure smooth UI interactions.

HireGuard

- Built responsive frontend components for an internal compliance platform designed to prevent backdoor hiring practices.
- Coordinated with Development team and created UI screens using Angular, HTML, CSS, and Bootstrap.
- Worked with the .NET backend team to integrate frontend components with backend services.
- Improved usability, accessibility, and cross-browser compatibility across the application.

iTeleCenter backoffice

- Contributed to redesign promosite and UI for backoffice
- Streamlined workflows and improved interactivity using Bootstrap and JQuery.

ExpertMarketing and Sales portal

- Internal sales and marketing portal used to support product marketing and sales operations.
- Used Kendo UI and bootstrap for the front-end, integrated with .NET backend.
